Steps to Reconcile Your Bank Account in QuickBooks Desktop

Follow these steps for a successful bank reconciliation:

1. Prepare Your Bank Statement:

- Gather your latest bank statement or download it from your bank portal.
- Ensure all transactions for the statement period are recorded in QuickBooks.

2. **Open Reconciliation Window:**

- Go to **Banking > Reconcile**.
- Select the bank account you want to reconcile.

3. **Enter Statement Information:**

- Input the **statement ending date** and **ending balance** from your bank statement.

4. **Match Transactions:**

- Check off the transactions in QuickBooks that match your bank statement.
- Investigate discrepancies such as missing deposits, uncleared checks, or duplicate entries.

5. **Adjust for Discrepancies:**

- If necessary, add adjustment entries.
- Avoid altering historical transactions unless you confirm errors.

6. **Complete Reconciliation:**

- When the **Difference** shows zero, click **Reconcile Now**.
- Print or save the reconciliation report for your records.
